- Approved Engine Course I & II
- RYA Short Range Radio
- Electrical Control Systems course by Andy Ridyard
- RYA Diesel Engine Maintenance
- Efficient Deckhand Course
- RYA Small Craft Radar course
- STCW 95
- Personal Water Craft Proficiency
- Proficiency in Security Awareness
- Spanish Seafarer's ID

Summary

Since the age of twelve I have been a keen free diver and have a love for the ocean. In order to access the best dive spots I learned to handle inboard and outboard powered boats. After sailing a passage from Menorca to Ibiza with a friend I discovered a passion for sailing. Which ultimately lead me to wind up my successful photographic studio and photojournalism career.

Maritime Experience

S/Y Imagine D Alloy Yacht 145ft

Sole Engineer

April 2021 - Present

I join the yacht at Auckland NZ, and after a short yard period at Orams we sailed from New Zealand to Spain, through the Panama Canal. Facing mechanical and logistic challenges we arrived after 60 days at sea in perfect working condition.

S/Y Pumula Royal Huisman 122ft

Sole Engineer

October 2019 - February 2021

During my time working on Pumula, we sailed around Patagonia and across the Pacific Ocean, where everything can change and your mind has to be flexible to try to find solution to engineering problems with the options available onboard and on this remote places. Learning a lot on planning and early maintenance, plus setting up IDEA program for the yacht. Due to the characteristics of the Yacht my skills on troubleshooting and logic engineering thinking had been a key point on keeping to yacht running.

S/Y Seawave Southern Wind 102ft

Sole Engineer/Mate

March 2018 - September 2019

During my time working on Seawave, I was in charge of all the machinery, carrying out task such as daily, monthly and yearly maintenance. In my dual role as Engineer/Mate I was managing contractors during the yard. I also dealt with any unexpected issues that occur during the season. As a mate I had responsibility of the high standards of maintenance that the owner requested to keep.

S/Y The Aquarius Perini Navi 46mts

Bosun / 2n Engineer

September 2016 - March 2018. The year and a half that I've been working on this yacht it's has been a really intense program. I've been working really hard on both departments to take back to super yacht standards a 27

years old yacht. As a bosun my duties are focus when the owner is onboard managing the sails, tenders and the deck. As a 2n Engineer, I managed the engineer watches during the long passages and work full time during the off boss time or yard periods.

S/Y Aquarius Perini Navi 46mts

Bosun / 2n Engineer

May 2016 - August 2016 Small refit in Genoa, due to prepare the yacht to get sold to the new owner. Working together with the Engineer, checking and fixing all the problems in the sailing system, hydraulics, among other problems.

Previous Employment

Photepo-studio.com

Proprietor & Manager

2004 -2014 - Set up a photographic studio based in Barcelona. From 2004 to 2014. I had to meet tight deadlines, and work long hours. Management of a team of five freelance workers.

La Vanguardia & El Periodico

Photojournalist

2011 to 2014. Working as a freelance photographer dealing with extreme deadlines, competition between colleagues, difficult and sometimes controversial subject matter. www.peposubiranas.com

Interests

Surfing and spearfishing are my main hobbies. I have been honing my skills in spearfishing since 2006. I take great pleasure in bringing fresh food to the table, particularly for guests.

I take part in a variety of outdoors sports particularly diving, rock climbing, and mountaineering. I have a good head for heights and am comfortable working aloft.

My interest and skills as professional photographer played an important role, being able to take high quality photos of the yacht and the activities that the guests were enjoying during their time onboard. While sailing, diving, or doing water activities. I was able to delivered an amazing memories of the time onboard. One of the highlights during my time on Seawave, was winning the “ SWS around the work” a Southern Wind photographic contest featured on his annual magazine.
